

We Design ...

**TRAPS**  
RAILWAY & ROAD DESIGN, GEODESY

... at a Highly Professional Level

# Company Profile

## Management

“TRAPS Toma Yotsov” was set up on 17 March 1998. The company is being managed by Mr. Toma Yotsov, a Civil Engineer with about 40 years of experience in designing railway tracks, railway stations, locomotive depots, railway junctions, container terminals, motor roads and others.

## Objects & Goal

The main objects of TRAPS are: design of railways and motor roads, geodetic surveys; consultation and engineering in the area of railway and road construction. The company's goal is to register active presence in the market by applying new design technologies in the infrastructure projects, while complying with the European criteria for quality and timeliness of implementation. With a team of highly qualified specialists integrated in a flexible corporate organizational structure and led by expert managers TRAPS has successfully performed its business in Bulgaria and abroad for over 20 years now.

## Other Activities

In the course of its activities the company also successfully takes on and implements other commitments going beyond its core design area, such as: urban planning solutions, vertical planning, construction design, design of water supply and sewage systems, engineering and geological research and development; preparation of tender documents.

# Company Profile

## Team

The company team consists of highly qualified specialists in railway and road design, geodetic and geological works. The rich professional experience and high competence of the company engineers, combined with the precise work and personal responsibility of each and every one of them, guarantee the high quality of the services and products offered by TRAPS to its customers. All engineers hold Certificates of Legal Capacity for Design issued by the Chamber of Engineers in Investment Design. The operations in the company are fully computerized involving the latest software products.

## Integrated Management System

“TRAPS Toma Yotsov” is certified by Lloyds Register Quality Assurance - LRQA under Integrated Management System (IMS) in accordance with standards: ISO 9001:2015, ISO 45001:2018 and ISO 14001:2015.

With the implementation of the IMS, we have achieved and maintained a high quality of the products and services offered. High quality projects and customer satisfaction, ensuring health and safety at work and protecting the environment are our goals and objectives priority.

## Membership

“TRAPS Toma Yotsov” is a member of the Bulgarian Association of Consulting Companies in Railway Construction (BACCRC).
